**Description:**

*The Global Military Simulation and Virtual Training Market 2015-2025* report provides readers with a detailed analysis of both historic and forecast global industry values, factors influencing demand, the challenges faced by industry participants, analysis of industry leading companies, and key news.

**Key Findings**

- The global military simulation and virtual training market is expected to be worth US$10.4 billion in 2015, and is expected to increase to US$15.8 billion by 2025, representing a CAGR of 4.20% during the forecast period.
- The market is anticipated to be dominated by North America followed by AsiaPacific and Europe. The US is the largest spender, with a cumulative expenditure of US$48.9 billion over the next decade.
- In terms of segments, flight simulators are expected to account for 60% of the global military simulation market, followed by maritime, and combat simulators, occupying 20% each.

**Synopsis**

This report offers detailed analysis of the global military simulation and virtual training market with market size forecasts covering the next ten years. This report will also analyze factors that influence demand for the global simulation and virtual training market, key market trends, and challenges faced by industry participants. In particular, it provides an in-depth analysis of the following:

- Global military simulation and virtual training market size and drivers: detailed analysis of the global military simulation and virtual training market during 2015-2025, including highlights of the demand drivers and growth stimulators for armored vehicles. It also provides a snapshot of the spending and modernization patterns of different regions around the world.
- Recent developments and industry challenges: insights into technological developments in the global military simulation and virtual training market, and a detailed analysis of the changing preferences of global simulation and virtual training market departments around the world. It also provides trends of the changing industry structure and the challenges faced by the industry participants.
- SWOT analysis of global military simulation and virtual training market: analysis of the industry characteristics by determining the strengths, weaknesses, opportunities, and threats faced by the global simulation and virtual training industry.
Global military simulation and virtual training market country analysis: analysis of the key markets in each region, providing an analysis of the key segments of the global simulation and virtual training market industry expected to be in demand in each region

Major programs: details of the key programs in each segment, which are expected to be executed during the forecast period

Competitive landscape and strategic insights: analysis of the competitive landscape of the global military simulation and virtual training market. It provides an overview of key players, together with insights such as key alliances, strategic initiatives, and a brief financial analysis

Reasons To Buy

This report will give the user confidence to make the correct business decisions based on a detailed analysis of the global military simulation and virtual training market, and to identify emerging and declining markets over the next ten years.

This report will give the user a thorough fact based analysis, with information about the demand for various global military simulation and virtual training segments in each of the top ten countries, and the underlying factors that are driving demand.

The analysts have placed a significant emphasis on the major industries that are driving the global military simulation and virtual training market, which will provide the user with a clear picture about future opportunities that can be tapped, resulting in revenue expansion.

The major programs section will inform the user about programs being undertaken within the global military simulation and virtual training departments in different segments of the market.

Detailed profiles of the top global military simulation and virtual training providers around the world with information about their products, alliances, recent contract wins and financial analysis wherever available. This will provide the user with a total competitive landscape of the sector.

A deep qualitative analysis of the global military simulation and virtual training sector covering sections including demand drivers, SWOT, industry trends, and the latest technological developments, among others.

Table Of Contents:

1 Introduction

1.1 What is this Report About?
1.2 Definitions
1.3 Summary Methodology
1.4 About Strategic Defence Intelligence

2 Executive Summary

3 Global Military Simulation and Virtual Training Market Size and Drivers
3.1 Military Simulation and Virtual Training Market Size and Forecast 2015-2025

3.1.1 Global military simulation market to show positive growth over the forecast period

3.2 Global Military Simulation and Virtual Training Market - Regional Analysis

3.2.1 North America is expected to lead the global military simulation and virtual training market

3.2.2 Flight simulators are expected to be the main drivers to support growth in the US market

3.2.3 Military simulation market to show robust growth in the Asia-Pacific region

3.2.4 European military simulation and virtual training market expected to increase despite defense budget pressures

3.2.5 Markets in the Middle East to record robust spending on military simulation

3.2.6 Brazil to dominate the military virtual training and simulation market in the Latin American region

3.2.7 African markets expected to witness a gradual increase in military simulation spending

3.3 Military Simulation and Virtual Training Sub-Sector Market Size Composition

3.3.1 Market size of flight simulators expected to grow at a CAGR of 4.85% over the forecast period

3.3.2 Maritime simulation market is consistently growing at the global level

3.3.3 Combat Simulators market to experience a marginal increase

3.4 Demand Drivers and Growth Stimulators

3.4.1 Restrictive defense budgets driving demand for simulation and virtual training

3.4.2 Modernization initiatives to spur demand for military simulators and virtual training programs

3.5 Defense Budget Spending Review

3.5.1 North American defense expenditure projected to decline marginally during the forecast period

3.5.2 Asian defense budgets expected to increase at a robust pace

3.5.3 European capital expenditure expected to increase during the forecast period

3.5.4 Modernization programs likely to drive defense expenditure in South American countries

3.5.5 Military budgets of African countries expected to increase during the forecast period

3.5.6 Defense budgets of Middle Eastern countries likely to increase during the forecast period

3.6 Defense Modernization Review

3.6.1 Financial constraints causing delays in European defense modernization programs

3.6.2 Defense budgets of Asian countries likely to be driven by competitive arms acquisitions

3.6.3 Global economic slowdown leading to defense budget cuts in the North American region

3.6.4 Need to replace aging equipment driving South American defense expenditure

3.6.5 Security threats increasing the defense budget of African countries

3.6.6 Demand for military simulators is likely to increase in the Middle East

4 Industry Trends, Recent Developments and Challenges

4.1 Technological Developments

4.1.1 Greater focus on advanced LVC capabilities

4.1.2 Transportable, reconfigurable, integrated, crew trainer (TRICT) simulator
4.1.3 Collimated displays to achieve enhanced field of view and focus
4.1.4 Submarine periscope simulator system
4.1.5 COTS Technology to result in substantial cost savings for the manufacturers
4.1.6 Cobra Curved Display Flight Simulator, the world's first panadome spherical projection simulator

4.2 Market Trends
4.2.1 Flight simulators segment dominating the military simulation sector
4.2.2 Combat training centers to warrant the growth of combat simulators market
4.2.3 Advancements in technology is lowering capital and operational costs

4.3 Industry Consolidation
4.3.1 Strategic partnerships, and Joint RandD programs expected to increase over the forecast period
4.3.2 Companies are entering into licensing agreements in order to simplify training programs

4.4 Key Challenges
4.4.1 Lack of networking and interoperability
4.4.2 Military simulation industry beset by fiscal challenges and increased competition

5 SWOT Analysis of the Military Simulation and Virtual Training Market

5.1 Strengths
5.1.1 Cost savings with the use of simulators and virtual training systems
5.1.2 Increase in procurement of aircraft and helicopter fleet stimulating demand for simulators
5.1.3 Ability to meet diverse training requirements
5.1.4 Deferred training, environmental policies and encroachment of training facilities

5.2 Weaknesses
5.2.1 Lack of precision

5.3 Opportunities
5.3.1 Demand for UAV simulators expected to grow
5.3.2 Global shift in simulator perception

5.4 Threats
5.4.1 US and European economic crisis
5.4.2 Achieving interoperability among simulators and live training equipment

6 Country Analysis - Military Simulation and Virtual Training Market

6.1 United States Market Size and Forecast 2015-2025
6.1.1 Flight simulator segment expected to grow at an anticipated CAGR of 4.07% during 2015-2025
6.1.2 Combat simulators expected to constitute the second-largest market share in the US
6.1.3 Maritime simulators market anticipated to increase at an estimated CAGR of 5.89% over the forecast period
6.2 Russia Market Size and Forecast 2015-2025
6.2.1 Russian flight simulator market to witness highest expenditure during the forecast period
6.2.2 Russian MoD's shift of focus towards simulation training to drive the expenditure on combat simulators
6.2.3 Maritime simulators expected to account for third largest spending in Russian simulators and virtual training systems market
6.3 UK Market Size and Forecast 2015-2025
6.3.1 Flight simulators expected to account for the highest expenditure in the UK market
6.3.2 British Royal Navy's emphasis on crew training to drive expenditure on maritime simulators in the country
6.3.3 UK combat simulators market to record growth rate of 4.79% during the forecast period
6.4 France Market Size and Forecast 2015-2025
6.4.1 Flight simulators to dominate the simulators sector in France
6.4.2 Maritime simulators market to register a growth rate of 1.84% over the forecast period in France
6.5 China Market Size and Forecast 2015-2025
6.5.1 Flight simulators market in China to account for the highest segment of expenditure
6.5.2 Chinese expenditure on combat simulators expected to grow at a CAGR of 5.00% over the forecast period
6.5.3 Maritime simulators to constitute 20.4% of Chinese military simulation and virtual training market
6.6 India Market Size and Forecast 2015-2025
6.6.1 Flight simulators to account for the largest segment of expenditure
6.6.2 Maritime simulators to account for the second largest share of Indian simulation market expenditure
6.6.3 Market for combat simulators to grow at a CAGR of 1.67% over the forecast period
6.7 Australian Market Size and Forecast 2015-2025
6.7.1 Flight simulators expected to account for the largest segment of expenditure
6.7.2 Market for maritime simulators to grow at a CAGR of 3.59% over the forecast period
6.7.3 Combat simulators expected to account for the third largest area of expenditure
6.8 South African Market Size and Forecast 2015-2025
6.8.1 Flight simulators segment to account for a major portion of expenditure by South Africa
6.8.2 Maritime simulators segment to increase at a CAGR of 6.25% during the forecast period
6.9 Saudi Arabia Market Size and Forecast 2015-2025
6.9.1 Flight simulators to dominate the simulators sector in Saudi Arabia
6.9.2 Maritime simulators market to register a growth rate of 7.96% over the forecast period in Saudi Arabia
6.10 UAE Market Size and Forecast 2015-2025
6.10.1 Flight simulators to account for the largest share in the UAE
6.11 Brazil Market Size and Forecast 2015-2025
6.11.1 Brazil is expected to spend significantly on military flight simulators
6.11.2 Expenditure on maritime simulation to grow at a CAGR of 7.63% over the forecast period
6.11.3 Combat Simulators to occupy 13.7% of the market share during 2015-2025

7 Major Military Simulation and Virtual Training Programs

7.1 Flight simulators
7.1.1 The US - F-16 Training System
7.1.2 The US - Support and Maintenance of Flight Simulators
7.1.3 Australia - Helicopter Aircrew Training System
7.1.4 The UK - UK Military Flight Training System (UKMFTS) program
7.1.5 France - NH90 simulator program

7.2 Maritime Simulators
7.2.1 Turkey - Submarine Diving Simulator
7.2.2 Australia - Canberra Class LHD simulators
7.2.3 The US - Training and Simulation Solutions for LCS

7.3 Combat Simulators
7.3.1 Russia - Combat Training Center Program
7.3.2 India - Futuristic Infantry Combat Vehicle (FICV) Simulators
7.3.3 US - LT2 Consolidated Product-line Management (CPM)
