About Smart Wearable Healthcare Devices and Services
Smart wearable healthcare devices are defined as those devices that are worn or attached to a user's body to monitor the changes in various organs and body parts. Some of the healthcare devices include smart watches, wearable hand, smart diapers, wristband, pedometer, and bionic suit. Important features of these devices include heart rate monitoring, sleep statistics, counting the amount of calorie burnt and taken, monitor body temperature and sleep statistics of babies, remote cardiac monitoring, and monitor and track daily activity of users. These devices easily sync with user's smartphones and tablets.

TechNavio's analysts forecast the Global Smart Wearable Healthcare Devices and Services market to grow at a CAGR of 30.42 percent over the period 2015-2019.

Covered in this Report
The report covers the present scenario and the growth prospects of the Global Smart Wearable Healthcare Devices and Services market for the period 2015-2019. The market is segmented into two: Smart Wearable Healthcare Devices and Smart Wearable Healthcare Services.

TechNavio's report, the Global Smart Wearable Healthcare Devices and Services Market 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. It covers the Global Smart Wearable Healthcare Devices market landscape and its growth prospects in the coming years. The report includes a discussion of the key vendors operating in this market.
