Industry & Manufacturing [2]
Country Overview (Industry & Manufacturing) [3]
Robotics

Description:
Report forecast the residential robotic vacuum cleaner market in South Korea to grow at a CAGR of 18.24% over the period 2014-2019.

A robotic vacuum cleaner, also called a robovac, is used to clean floors, gutters, and pools and has the ability to function without human intervention within a defined area. It consists of a mobile base, a docking station, and other accessories that support its smooth functioning. It is autonomous to a high degree and uses intelligent sensory feedback control that is programmed to clean surfaces automatically.

A robovac has additional features such as smart navigation, laser vision, room memory, mapping, and a self-emptying function, thus enabling increased efficiency and performance. In addition, it has in-built ledge sensors that allow smoother maneuverability. Residential robotic vacuum cleaners assist in cleaning and ease household chores.

The report covers the current scenario and the growth prospects of the residential robotic vacuum cleaner market in South Korea for the period of 2015-2019. To calculate the market size, the report considers revenue generated through the sales of the following types of robotic vacuum cleaners:
- Home cleaning
- Pool cleaning
- Gutter cleaning

Residential Robotic Vacuum Cleaner Market in South Korea 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the landscape of the residential robotic vacuum cleaner market in South Korea and its growth prospects in the coming years. The report includes a discussion of the key vendors operating in this market.

Key countries
- South Korea

Key vendors
- iRobot
- LG
Other prominent vendors

- ECOVACS
- Electrolux
- Hanool Robotics
- Mamirobot
- Maytronics
- Moneual
- Neato Robotics

Key market driver

- Decreased time for household activities
- For a full, detailed list, view our report

Key market challenge

- Basic nature of residential cleaning routines
- For a full, detailed list, view our report

Key market trend

- Security features in robotic vacuum cleaners
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2019 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table Of Contents:
PART 01: Executive summary

Highlights

PART 02: Scope of the report

Market overview
Top-vendor offerings

PART 03: Market research methodology

Research methodology
Economic indicators

PART 04: Introduction

Key market highlights

PART 05: Market landscape

Market overview
Market size and forecast by unit shipment
Market size and forecast by revenue
Market size and forecast by average selling price (ASP)
Five forces analysis

PART 06: Market drivers

PART 07: Impact of drivers

PART 08: Market challenges

PART 09: Impact of drivers and challenges

PART 10: Market trends

PART 11: Vendor landscape

Competitive scenario
Market share analysis 2014
Other prominent vendors

PART 12: Key vendor analysis

iROBOT
Business segmentation by revenue 2013 and 2014
LG Electronics
Samsung
Yujin Robot
PART 13: Appendix

List of abbreviations

PART 14: Explore Technavio

List of Exhibits

Exhibit 01: Product offerings
Exhibit 02: Types of residential robotic vacuum cleaners
Exhibit 03: Residential robotic vacuum cleaners market in South Korea 2014-2019 (thousands of units)
Exhibit 04: Residential robotic vacuum cleaners market in South Korea 2014-2019 ($ millions)
Exhibit 05: Residential robotic vacuum cleaners market in South Korea ($)
Exhibit 06: Five forces analysis
Exhibit 07: Impact of drivers
Exhibit 08: Impact of drivers and challenges
Exhibit 09: Authentication mechanisms using security features in robotic vacuum cleaners
Exhibit 10: iRobot: Business segmentation by revenue 2014
Exhibit 11: iRobot: Business segmentation by revenue 2013 and 2014 ($ millions)
Exhibit 12: iRobot: Geographical segmentation by revenue 2014
Exhibit 13: LG Electronics: Business segmentation by revenue 2014
Exhibit 14: LG Electronics: Business segmentation by revenue 2013 and 2014 ($ billions)
Exhibit 15: LG Electronics: Geographical segmentation by revenue 2014
Exhibit 16: Samsung: Business segmentation by revenue 2014
Exhibit 17: Samsung: Business segmentation by revenue 2013 and 2014 ($ billions)
Exhibit 18: Yujin Robot: Business segmentation 2014 by revenue
Exhibit 19: Yujin Robot: Business segmentation by revenue 2013 and 2014 ($ millions)

Companies Mentioned:
LG, Samsung, iRobot, Yujin Robot, ECOVACS, Electrolux, Hanool Robotics, Mamirobot, Maytronics, Moneual, Neato Robotics

License Types:

Single User License (PDF)

- This license allows for use of a publication by one person.
- This person may print out a single copy of the publication.
- This person can include information given in the publication in presentations and internal reports by providing full copyright credit to the publisher.
- This person cannot share the publication (or any information contained therein) with any other person or persons.
• Unless a Enterprise License is purchased, a Single User License must be purchased for every person that wishes to use the publication within the same organization.
• Customers who infringe these license terms are liable for a Global license fee.

**Site License (PDF)**

• This license allows for use of a publication by all users within one corporate location, e.g. a regional office.
• These users may print out a single copy of the publication.
• These users can include information given in the publication in presentations and internal reports by providing full copyright credit to the publisher.
• These users cannot share the publication (or any information contained therein) with any other person or persons outside the corporate location for which the publication is purchased.
• Unless a Enterprise License is purchased, a Site User License must be purchased for every corporate location by an organization that wishes to use the publication within the same organization.
• Customers who infringe these license terms are liable for a Global license fee.

**Global License (PDF)**

• This license allows for use of a publication by unlimited users within the purchasing organization e.g. all employees of a single company.
• Each of these people may use the publication on any computer, and may print out the report, but may not share the publication (or any information contained therein) with any other person or persons outside of the organization.
• These employees of purchasing organization can include information given in the publication in presentations and internal reports by providing full copyright credit to the publisher.
